SECTION A: SCHOOL ARRANGEMENTS

A1: Aims

This policy recognises the entitlement of all Cundall Manor School pupils, from Early Years Foundation Stage (EYFS) to Year 11, to a balanced, broadly based curriculum. The SEND (Special Educational Needs & Disabilities) policy reinforces the need for teaching that is fully inclusive, does not discriminate and which values the abilities and achievements of all pupils. The Governing Body, through the Senior Leadership team and the Head of Learning Support will, within the resources available, make their best endeavours to ensure all pupils with SEND have access to the curriculum, take part in all school activities and achieve their potential.

Also, as stated in the school Safeguarding policy, the school promotes a *'whole school protective ethos'* and will:

'establish and maintain an environment and positive ethos where children feel secure, supported and are encouraged to talk, are listened to, can learn, develop and feel valued'

The SEND aims of the school

- To comply with the current legislative framework, including the Disability Discrimination Act 1995, the Equality Act 2010 and the Children and Families Act 2014. As an ISI independent school, the School does not have a statutory obligation to comply with the Send Code of Practice 2015 but aims to do so where relevant.
- To identify all pupils requiring SEND provision as early as possible and follow the school's graduated and individual approach to meet their needs. This includes those pupils with English as an additional language (EAL) and those who are deemed Gifted & Talented (G & T)*.
- To ensure equal access, for all our pupils, to all aspects of school life, by making whatever reasonable adjustments are possible within the resources available. Resources to consider include the financial cost of making the adjustment and the extent to which making the adjustment would be practicable, effective, in the best interests of all pupils and safe with respect to Health & Safety requirements.
- To ensure that parents of SEND pupils are kept fully informed of their child's progress and attainment and maintain a policy of open communication between home and school. Parents have overall responsibility for taking decisions about the management of their children's Learning Support.
- To ensure that SEND pupils are involved, where practicable, in decisions affecting their future SEND provision.
- To ensure that all staff are aware of individuals' needs, learning differences and styles, and of the reasonable adjustments that can be made to enable their pupils to access the curriculum and achieve their potential. To provide appropriate INSET to upskill and update our teaching staff.
- To develop positive and effective working relationships between the Learning Support Department (LSD) staff, teachers, support staff, parents, pupils and outside agencies.
- To ensure smooth transition between each phase of the child's school career.

- To offer specialist, additional tuition where necessary, and with the agreement of parents.
- To foster confidence, self-esteem and independence in learning.
- To ensure appropriate exam access arrangements are in place for pupils with SEND and EAL and that all staff are aware of these.

* Please refer to separate EAL and G&T policies for further details

Definition of Special Educational Needs

The Children & Families Act (2014) defines children as having special educational needs (SEN) or a disability if they have a learning difficulty that calls for *special educational provision* to be made for them.

A child of compulsory school age has learning difficulties if he or she:

1. Has a significantly greater difficulty in learning than the majority of children of the same age
2. Has a disability which prevents or hinders the child from making use of educational facilities of a kind generally provided for children of the same age in mainstream schools

A child under compulsory school age has a learning difficulty or disability if he or she is likely to fall into the categories above when they reach school age, or if special educational provision was not made for them.

Special education provision means:

- For a child over two, educational provision which is additional to, or different from, the educational provision made generally for children of the same age in maintained schools, (other than special schools)

Whilst the SEND Code of Practice (2015) specifies that, 'difficulties related solely to limitations in English as an additional language are not SEN', the school recognises that these pupils will have specific learning requirements.

A2: Roles and Responsibilities

The SEND team of the school is:

School Governor responsible for SEND: Ms Anne Wheatcroft

Head of Learning Support/Special Educational Needs Coordinator (SENCO):

Mrs Elizabeth Graham: BEd (Hons), PGC (SpLD)

Learning Support Teaching Staff:

Mrs Annabel Fife: BA (Hons), PGC, Hornsby Diploma (SpLD)

Mrs Julie Christy: BEd (Hons), PGC (SpLD)

Mrs Elaine Strong: BSc (Hons), QTS, Diploma in SEN & Dyslexia

Learning Support Assistant:

Mrs Victoria Wick

The roles and responsibilities of the Head of Learning Support and LSD staff are detailed in the LSD Handbook.

The Governing body have a standing agenda item for SEND/EAL/G&T and alongside the Head Teacher, Senior Leadership team and Head of Learning Support, monitor the policy, provision and resources for these pupils. This includes the identification and facilitation, through links with the school's performance management system, of any staff training or professional development needs with regard to SEND.

The current Code of Practice clearly acknowledges the importance allocated to the teacher, ***'Every teacher is a teacher of special educational needs'***. Responsibility for the pupil's learning therefore lies with the class teacher.

As such, all teachers and support staff must:

- Be aware of and robustly follow the school's procedures for the identification and assessment of, and subsequent provision for, SEND pupils.
- Be aware of the pupils on the SEND Register and regularly refer to the SEND information on the whole school database in order to keep fully informed of pupils' needs and the recommendations for their support.
- Collaborate with the LSD staff to decide the action required to assist the pupil to access the curriculum and make progress
- Work with the LSD staff to collect all available information on the pupil and keep appropriate records, including evidence to support exam access arrangements
- Collaborate with the LSD staff in the development of Additional Tuition Plans (ATP's) or EYFS profile summaries for SEND pupils..
- Work with SEND pupils on a daily basis to deliver support within the Wave 1, 2 and 3 approach and individually adapted curriculum planning, endeavouring to take every reasonable step possible to meet their needs.
- Use their performance management process to identify any CPD needs with regard to SEND

SECTION B: FULFILLING OUR AIMS

B1: ADMISSIONS:

The School complies with the Equalities Act 2010 and does not discriminate in any way regarding entry. We welcome pupils with Special Educational Needs and Disabilities, providing that they are able to take a full and active part in school life and their needs can be met with the reasonable adjustments our Class Teachers and Learning Support Department are able to offer. It is requested that parents discuss with the Head of Admissions and Head, any support that is needed, as early as possible in the admissions procedure.

Following an application for a place at the school and before an offer is made, the school will consider:

- The impact on the provision of efficient education for all pupils in that cohort

- The ability of the school to make the necessary adjustments and meet needs within existing resources in order to prevent any disadvantage.
- Health and Safety requirements

To this end, we require parents to provide all relevant paperwork on application e.g. School Reports, Medical Reports, Educational Psychologist reports etc. The Learning Support Department may also undertake assessment screening prior to an offer of a place being made. All such information will be treated confidentially and only communicated on a 'need to know' basis.

B2: ASSESS

Categories of Special Educational Need

The Code of Practice does not assume that there are hard and fast categories of special educational need, but recognises that children's needs and requirements fall into four broad areas:

- Communication and interaction
- Cognition and Learning
- Social, emotional & mental health difficulties
- Sensory and/or physical needs

Early identification of pupils requiring different or additional support is a priority and follows a graduated approach – WAVE 1, WAVE 2, WAVE 3 and Additional Tuition.

The school uses appropriate screening and assessment tools, (EYFS Framework, INCAS, MidYis, Yellis), to identify pupils who may require SEND intervention. School staff also identify pupils who may not be achieving the expected levels within their general curriculum. Reasonable adjustments are made and the process detailed in Figure 1 on page 7 begins. Examples of the sorts of 'Reasonable Adjustments' made are detailed in the Appendix but would clearly vary depending on the individual needs of each pupil. In EYFS, the Statutory Framework for the Early Years Foundation Stage (2016) is used and assessments take into account contributions from a range of perspectives to ensure that any child with potential special educational needs who is not meeting expected levels of development is identified and supported at the earliest possible opportunity.

Teachers consult with parents at the start of this process and discuss the findings of any assessment.

B3: PLAN

Figure 1 on the next page summarises the steps taken when a pupil's access to the curriculum and/or learning becomes a cause for concern.

The aim of SEND provision at our school is to meet individual needs, in the first instance, through differentiated 'Quality First Teaching' (Wave 1) in small classes. This is supported, where necessary, by 'reasonable adjustments' i.e. personalised, structured plans of support which build on strengths whilst targeting weaknesses, use additional/alternative methods or resources and enable all pupils to access the curriculum and participate in every school activity (see Appendix). We aim to engage, challenge and motivate as well as celebrate difference, raise confidence, encourage independence and promote self-advocacy.

The Graduated Approach:

Wave 1 – Quality First Teaching, for all pupils. Providing an inclusive, accessible and multi-sensory curriculum in small classes.

Wave 2 – Differentiation, reasonable adjustments and short term in-class intervention for pupils who are not making expected progress or are giving cause for concern

Wave 3 – Specialist Assessment in the Learning Support Department is offered if the concern continues and recommendations made.

Additional Tuition - This is delivered on an individual basis by Specialist Teachers in the Learning Support Department. This is additional to the support already available in class and the school reserves the right to make a charge for it. This will only be put into place after close consultation and consent from parents.

If a pupil:

- Demonstrates difficulty in developing literacy or numeracy skills, despite Quality First Teaching and makes little or no progress despite reasonable adjustments to the general curriculum plan by the class teacher
- Shows persistent emotional/behavioural difficulties which are not affected by relevant behaviour management strategies
- Has sensory/physical problems, and makes little progress despite reasonable adjustments or the provision of specialist equipment

Then the Learning Support Staff, in collaboration with teachers, parents and pupils will make an assessment and decide on a plan of support.

FIGURE 1 - THE SEND PROCESS AT CUNDALL MANOR SCHOOL

SEND Register

The SEND Register and the School Information Management System (School Base) details all children who require their Special Educational Needs or Disabilities to be met through the range of provision listed previously.

Additional Tuition Plans (ATP) and Pupil Profiles

Strategies for pupils' progress will be recorded in the EYFS Profile summary, or on an ATP. These will record only that which is different from or additional to the normal differentiated curriculum. ATP's will concentrate on personalised support that closely matches the pupil's needs, to be delivered by the Specialist Teacher, as well as recommendations for support in class and at home. The ATPs will be discussed with the pupil and the form teacher and a copy sent home for parents. Copies are available to all staff who teach that particular child along with the Educational Psychologist's or External Professional's report where appropriate.

In addition to ATP's, **Pupil Profiles** are available on 'SchoolBase' (the school information management system), detailing specific individual needs, recommended reasonable adjustments and further effective strategies for supporting pupils in the classroom. These are updated regularly and are helpful, for form/class teachers and boarding staff, in sharing relevant information and in providing a consistent approach to meeting the needs of our pupils.

Education, Health and Care Plans (EHCP):

An EHCP will normally be provided where, after a Statutory Assessment, the LEA considers the child requires provision beyond what the school can offer. However, the school recognises that a request for a Statutory Assessment does not inevitably lead to an EHCP.

An EHCP will include details of learning objectives and outcomes for the child. These are used to develop targets that are:

- Matched to the longer-term objectives set in the plan.
- Established through parental/pupil consultation
- Set out in a personalised ATP
- Implemented in the classroom or in specialist 1:1 lessons

B4: DO

Where 'Additional Tuition' is undertaken with a specialist teacher in the LSD, these are planned to rotate through the week, so the pupil, ideally, does not miss the same lesson more than once in a half-term. In some cases, the lesson is fixed at the same time each week. The timing of these lessons depends on the needs of the pupil. Parents are consulted and billed termly for these.

Support, including the use of appropriate ICT, is available for all students including those with EAL, depending on their level of need and at the discretion of the class teacher. Use of ICT is in line with the school acceptable use policy and word-processing in exams will be granted only after guidance/recommendation from the LSD or a specialist assessor and in line

with the Exam Access Arrangements (EAA) Policy section on using Word processors.

In line with the EAA Policy, appropriate access arrangements, such as readers, scribes or extra time, will be awarded where necessary, following screening and an assessment by our External Examinations Assessor, to enable pupils to demonstrate their learning in formal and national examinations.

In some instances, it may be considered inappropriate for pupils to study either Latin or Modern Foreign Languages. Where this is the case, Accelerated Learning lessons are timetabled for Form5 upwards to deliver extra English, Maths and Science support. Below Form 4, the Off Languages timetable for such pupils will be at the discretion of the class teacher and may involve activities set by them which are overseen by a teaching assistant (TA). Where possible, the Learning Support department will try to fix specialist lessons in these slots.

B5: REVIEW

Reviews of ATP'S

ATP's will be reviewed termly, in an informal manner, and wherever possible or appropriate, the school will involve parents and pupils in this process.

Reviews of Education, Health and Care plans (EHCP)

EHCP's must be reviewed annually. The LEA will inform the Head Teacher at the beginning of each school term of the pupils requiring reviews. The Head of Learning Support will organise these reviews and invite:

- The child's parent
- The child if appropriate
- The relevant teacher
- The Head of Learning Support
- An External Professional where appropriate
- A representative of the LEA
- Any other person the LEA considers appropriate
- Any other person the Head teacher considers appropriate

The aim of the review will be to:

- Assess the pupil's progress
- Review the provision made for the pupil in the context of the school curriculum and levels of attainment in basic literacy/numeracy and life skills
- Consider the appropriateness of the existing Statement/EHCP in relation to the pupil's performance during the year, and whether to cease, continue, or amend it
- Set new targets and outcomes for the coming year

Tracking Pupil Progress

Annual, internal assessments are undertaken within the LSD and the results of these are recorded with the purpose of analysing and tracking pupil progress. This information, alongside on-going diagnostic assessment, whole school assessment, tracking data, feedback from class teachers/parents and termly reports, informs planning and decisions regarding SEND provision.

Evaluating success

Whilst not always easily quantifiable, the success of the school's SEND Policy and provision is evaluated through:

- Analysis of Whole School and LSD pupil tracking data and test results
- Discussion with teachers and observations of pupil performance in class.
- Discussion and feedback from pupils and parents.
- Consideration, by Learning Support staff, of each pupil's progress in relation to their planned support.
- Whole School self-evaluation.
- The school development plan/SEND development plan
- Annual Review of the EHCP or re-assessment by External Support Agencies.

SECTION C: PARTNERSHIP WITHIN AND BEYOND THE SCHOOL

C1: Links with Teaching staff, Sharing Information and Staff Development.

LSD staff, teaching staff, teaching assistants and the Head Teacher all work closely together at Cundall Manor to identify, plan for and meet the needs of every pupil. The LSD share information through the school information management system and a file on the Staff Shared area of the school system. Members of the LSD attend and contribute to staff meetings where appropriate and the Head of Learning Support holds a regular briefing/planning meeting with the SLT.

Staff are encouraged to seek advice from the Learning Support Department to help acquire the skills needed to work with SEND pupils, share good practice and if necessary attend relevant courses. The school's INSET and staff professional development needs are regularly considered and included in whole school and LSD plans. These are met in house where possible or through the support of external advisory services or training agencies.

The Cundall Manor School SEND Toolkit is given to NQT's and new teachers as part of their induction and forms an increasing bank of resources and practical teaching procedures for use with SEND pupils (see LSD Library & Staff Shared).

C2: Links with other agencies, organisations and support services

The school recognises the important contribution that external support services make in assisting to identify, assess, and provide for, SEND pupils. When it is considered necessary, colleagues from the following support services will be involved with SEND pupils:

- Educational Psychologists
- Medical Officers, GP's
- Speech and Language Therapists
- Physiotherapists/Occupational Therapists
- Hearing & Visual impairment services
- Autism Outreach
- CAMHS (Child and Adult Mental Health Services)
- Clinical Psychologists
- School Well-Being Support Teacher

All adults working with our pupils will have had Enhanced DBS checks and will comply fully with the Independent Schools standards regulations.

The Local Offer

A more detailed picture of the services available to families of children with a range of SEND needs is available through the 'Local Offer' made by North Yorkshire County Council. Information about this can be found on: www.northyorks.gov.uk/send-local-offer

C3: Partnership with parents

Cundall Manor firmly believes in developing a strong partnership with parents that will enable children and young people with SEND to achieve their potential. The school recognises that:

'Parents hold key information and have a critical role to play in their children's education. They have unique strengths, knowledge, and experience to contribute to the shared view of a child's needs and the best way of supporting them.' (CoP 2012 2.2)

As a school we like to:

- Communicate with parents, formally through parent's evenings or, three times a year via their child's ATP, if their child is receiving 'Additional tuition'
- give parents clear information about their child's abilities in school
- draw parents into the identification process
- inform parents of any action taken to meet their child's specific needs
- include parents in the planning of learning support for their child
- enable parents to contact members of the Learning Support team by phone, by e mail, via their child's ATP or by dropping in before or after school. If necessary longer appointments can be made to meet with LSD staff.
- listen carefully and take appropriate action where parents do not think their child's needs are being met, dealing with any complaints in line with the school's complaints policy.

Parents can support their child by:

- telling the school about their child's talents and abilities beyond the classroom as well as their history and development to date.

- providing a suitable environment in which their child can study and encouraging good study habits
- seeking advice from the school when their child is experiencing difficulties
- encouraging their child to take part in worthwhile and varied out of school activities and experiences
- being aware that their child will need a variety of skills and experiences in order to fulfil their potential
- encouraging them to complete learning or reinforcement tasks recommended by their Learning Support Teacher.
- maintaining close contact with their child's LSD teacher and giving any appropriate feedback.

C4: The voice of the child

At Cundall Manor, we encourage pupils to take an active role in making decisions that affect their education from the earliest possible opportunity. The ways in which children are encouraged to participate reflect the child's evolving maturity. Pupils receiving additional tuition in the Learning Support Department are consulted with regard to their Additional Tuition Plan. Confident young children, who take responsibility for their own learning, know that their opinions will be valued. Those who can practise making choices, will be more secure and effective pupils during their school years. Pupil voice is taken into account on ATP's and EHCP's.
