Key amendments from previous version	Updated with further training undertaken by boarding staff

This information is taken from and contained within the Boarding Policy document

Boarding staff development

Cundall Manor is committed to the continuing professional development of all staff, including boarding staff, and encourages applications for appropriate training grants and subsidies. The attention of boarding staff is drawn in particular to the various courses and qualifications offered by the Boarding Schools' Association, which extend from short day courses to university-accredited professional practice and development certificates. Every effort will be made to accommodate interest shown by staff in any relevant training. Application should be made in the first instance to the Head who will arrange for the necessary submissions to be made to the SMT and the Business Manager, and who will ensure appropriate arrangements are made for cover within the house.

Record of Inset
